

Tell Your Child's Story

Governor Strickland's biennial budget proposal includes devastating cuts in charter school funding. It's essential that we unite and aggressively respond to this attack.

Nothing is more compelling than a child's story. With your help, OAPCS will send charter school students' stories to Ohio's legislators every week as a constant reminder of who these potentially devastating cuts will impact most: your students.

Submissions should include the following information (ideally formatted as a one-page Word document) and be sent via email to cwest@oapcs.org:

- Student photo
- 250-500 words focused on:
 - Why they chose their charter school
 - Their social/academic experience in their charter school
 - Their unique circumstances/needs
 - Their future plans
